# Procurement/Supply Chain Internship Program

*Energize your career*

At the heart of The Chevron Way is our Vision... to be *the* global energy company most admired for its people, partnership and performance.

## Summer Internship Program

For college juniors who would like to take a closer look at Chevron, Procurement/Supply Chain sponsors a summer internship program. Participants will intern as a Business Analyst where they will gain a better understanding of Chevron's business and learn more about its people and culture. Internship assignments mirror the experience and responsibilities of Procurement/Supply Chain professionals. The experience is challenging and rewarding.

Procurement/Supply Chain summer interns will be asked to complete a variety of tasks and may work on several projects simultaneously. The position conducts various supply chain analyses, internal and external market research studies, as well as data and process analysis to Procurement management and cross-opco Procurement teams. Frequent interaction with senior managers, current program members and program alumni can be expected.

Assignments are driven by organizational and business needs, and include supporting Category Management, Strategic Sourcing and other Procurement activities in Corporate, upstream, midstream or downstream business units. Prior assignments include but are not limited to:

- Buying and Expediting
- Strategic Capabilities
- Spend Analysis
- Rate Competitiveness
- Quality Management
- Project Management

Summer internships are typically in the San Francisco Bay Area or Houston, Texas. This position works with line business teams where a high level of initiative is critical.

Duration of the internship typically begins in late May and ends in early August.

A summer internship offers you a unique opportunity to experience our program firsthand and to view Chevron from a new perspective. At the end of the internship, full-time positions may be offered to selected interns.

***"My experience encompasses not only the work I completed, but has a lot to do with people and culture at Chevron." - Derek***

***"I got to see actual results and see the impact I made - this is quite rare in many internships. The internship provides an abundance of knowledge on the industry, company, and supply chain." - Sharon***

***"My summer internship at Chevron gave me the best opportunity for a relationship of mutual sharing and learning between the company, myself, and fellow interns." - LeeAnn***
