procurement/supply chain management

summer internship program
procurement/supply chain management summer internship program

For first-year MBA students who would like to take a closer look at Chevron, Procurement/Supply Chain Management sponsors a summer internship program.

what you’ll do

Participants will intern as business analysts where they will gain a better understanding of Chevron’s business and learn more about its people and culture. Internship assignments mirror the experience and responsibilities of Procurement/Supply Chain Management professionals and are designed to be challenging and rewarding.

Procurement/Supply Chain Management interns will be asked to complete a variety of tasks and may work on several projects simultaneously depending on size and scope, including conducting various supply chain analyses, internal and external market research studies, and providing data and process analyses to Procurement management and cross-opco procurement teams. Frequent interaction with senior leaders, senior managers, current program members and program alumni can be expected.

Assignments are driven by organizational and business needs and may include supporting:

• Category Management
• Strategic Sourcing
• Contracting
• Procurement Operations
• Market Intelligence
• Supplier Diversity & Local Content
• Procurement Technologies

what we look for

We’re looking for talented first-year MBA students with strong academic performance and a committed career interest in procurement/supply chain management and the energy industry with the following credentials:

• Geographic flexibility and willingness to relocate for different assignments
• Strong desire to explore a variety of business areas
• Demonstrated leadership, creativity, initiative and adaptability
• Results-driven, strategic thinking
• Proven financial acumen
• Sound analytical skills
• Ability to thrive in a diverse, flexible, collaborative team
• Ability to develop solutions to complex business challenges
• Strong leadership and interpersonal skills aspiring to leadership positions
• Permanent U.S. work authorization*

where you’ll work

Potential assignment locations include:

• Houston, Texas
• San Ramon, California
• Richmond, California
• Other locations based on business need

what to expect

• 10-12 week program (late May through early August)
• Challenging and impactful project(s)
• Educational training sessions
• Networking opportunities
• Volunteer opportunities

work/life balance

While you can expect a challenging and at times demanding career at Chevron, we offer several work/life balance initiatives that include:

• Compressed workweek
• Onsite child care
• Onsite fitness center and fitness incentive programs
• Fitness membership partnerships

at the heart of The Chevron Way is our Vision…to be the global energy company most admired for its people, partnership and performance.

your continued growth

While in the program, you’ll receive guidance from the program manager, as well as from a Procurement/Supply Chain Management professional who will serve as your mentor. You will receive regular performance feedback during your internship.

A summer internship offers you a unique opportunity to experience Procurement/Supply Chain Management firsthand and view Chevron from a new perspective. Full-time positions may be offered to selected interns at the end of the program.
